Artificial Intelligence Application Development Practical
Module - II
Practical – I

Roll No.:T054	Name:Priti Yadav
Class:TYIT	Batch:2
Date of Assignment: 29/08/26	Date/Time of Submission: 29/08/26

1. Jira Setup & Project Creation.

A. Create a Jira Cloud account and explore the dashboard.

Open Google and search for Jira. Open the Jira website to begin the setup.

The screenshot shows a Google search for 'jira'. The search bar contains 'jira'. Below the search bar, there are tabs for 'All', 'Images', 'Shopping', 'Videos', 'Forums', 'News', 'More', and 'Tools'. The search results are categorized into 'Sponsored Result' and a 'Knowledge Panel' for Jira.

Sponsored Result:

Knowledge Panel for Jira:

- Jira**
Software
- Jira is a software product developed by Atlassian that allows bug tracking, issue tracking and agile project management. Jira is used by a large number of clients and users globally for project, time, requirements, task, bug, change, code, test, release, sprint management.
- Source: [Wikipedia](#)
- Programming language: [Java](#)
- Developer: [Atlassian](#)
- People also search for: [Trello](#), [Asana](#)

Click on Google. Enter the required email/account details and click Continue to create or access your Jira account.

The screenshot shows the Jira sign-up page. The headline reads 'Where your teams and AI come together'. Below the headline, there is a sign-up form with the following elements:

- Work email:** A text input field containing 'pritiyadavmvlu@gmail.com' with a green checkmark icon.
- Using a work email helps find teammates and boost collaboration.**
- Sign up** button.
- Or continue with** section with **Google** and **Microsoft** login options.
- Preview of Jira Dashboard:** A screenshot of the Jira dashboard showing a project named 'The Next Big Thing'. The dashboard includes a search bar, a list of issues, and a status bar at the bottom with 'IN PROGRESS' and 'DONE' buttons.

Complete the account creation process by following the instructions displayed on the screen.

Wait for Jira to complete the initial setup. The Getting things ready screen will appear.

Select the type of work you want to manage. For this practical, select Project management.

What kind of work do you do?

This helps us suggest templates that help your team do their best work.

 Software development	 Product management
 Marketing	 Design
 Project management →	 Operations
 IT support	 Human resources
 Customer service	 Legal
 Finance	 Sales
 Data science	 Other

From the available project-management templates, select the required template that is Kanban and click Next.

Enter a suitable name for your space/project in the Name your space field.

Select the appropriate method for tracking your work and click Next.

After this select the type of work – click next.
Click on Go to Jira.

After completing the setup, the Jira Dashboard will appear. The dashboard provides access to your projects and work.

B. Create a Company-managed Scrum/Kanban Project.

From the Jira navigation menu, click Spaces (+) to create or access a space.

Select the Kanban template to create a Kanban-based project.

Select Kanban and click on use template

Enter the required Space Name and provide the necessary details such as, select Company-managed in space managed option and then click next

Enter the email addresses of the team members you want to add to the space. If you do not want to add members at this stage, select I'll do this later.

Bring your team along

Get a head start by inviting your team while you wait.

Enter names or emails
